

## **Session Program**

**May 2 - 3, 2024**

# **18. Kosmologietag**

## ***Session I***

ZiF | Bielefeld University, Plenarsaal  
Methoden 1 33615 Bielefeld

## Thu, May 2

3:50 PM

### Session I: Talks 1 - 5

#### Session

3:50 - 4:05 PM

#### Minimal decaying dark matter: from cosmological tensions to neutrino signatures

**Speaker**

Lea Fuß

4:05 - 4:20 PM

#### Probing modified Hawking evaporation with gravitational waves from the primordial black hole dominated Universe

**Speaker**

Jan Tränkle

4:20 - 4:35 PM

#### Properties and Signatures of ALP Stars in the Milky Way

**Speaker**

Dennis Maseizik

4:35 - 4:50 PM

#### QED contribution to Neff at NLO

**Speaker**

Yannis Georis

4:50 - 5:05 PM

#### ApPoLo - Apertif counterparts of polarised LOFAR sources

**Speaker**

Anna Berger

5:05 PM
